

The U.S. Congress has unanimously passed resolutions condemning the murders of women in Ciudad Juarez and Chihuahua, Mexico and the use of torture as a means of investigating the crimes. This success is a result of a campaign by several allies such as Amnesty International, Latin America Working Group (LAWG) and the Washington Office on Latin America (WOLA), which integrated the film "Dual Injustice: Femicide and Torture in Ciudad Juarez and Chihuahua " as a key component.

You can view "Dual Injustice," a co-production of WITNESS and partner organization Comisión Mexicana de Defensa y Promoción de los Derechos Humanos. The WITNESS newsletter on the next page has more information and links to viewing the movie.
