## WHY DO WE ALWAYS PACK A CAMERA?

We travel in search of adventures. We record them to share unique moments that transcend words and preserve them in our minds forever. Yet the pursuit of these experiences threatens to undermine the very essence of what we seek. In Ecuador, we recognize this, and are taking steps to preserve our natural bounty.

We've partnered with the Rainforest Alliance to protect Ecuador's natural resources and cultures while providing the adventure traveler with a journey that will resonate for a lifetime.

Ecuador offers an unrivaled variety of deeply authentic experiences. From the legendary biodiversity of the Galapagos, to the seaside traditions of the Coast, to the indigenous cultures of the Andes and the adventure of the Amazon rainforest.

We proudly unite with the Rainforest Alliance to preserve our natural treasures for visitors who move through the world with their eyes, arms, and minds wide open. If this is why you travel, we welcome you to Ecuador.
